February 11, 2013

City of South Miami
South Miami, Florida

We have completed an inventory and reconciliation of certain property exhibited to us as that of City of South Miami located in South Miami, Florida, and submit our findings in this report.

We issued our original Fixed Asset Inventory and Reconciliation Report and Supporting Exhibits on January 18, 2013; a revised report on January 28, 2013; a draft second revised report on February 1, 2013; a draft third revised report on February 5, 2013; and a draft fourth revised report on February 6, 2013. The second revised final report was required to make additional client-requested changes.

As a firm, we adhere to the methodology, procedures, and standard requirements as set forth by the Uniform Standards of Professional Appraisal Practice (USPAP). However, this report provided for this service is not to be considered an appraisal under USPAP. Supporting documentation concerning the data, reasoning, and analyses have been retained as a part of our work papers. This report is specific to your needs as the client and for the intended use stated. American Appraisal is not responsible for the unauthorized use of this report.

PURPOSE OF THE ENGAGEMENT

The purpose of this engagement was to provide City of South Miami updated fixed asset accounting records for internal accounting control and financial reporting as of September 30, 2012. Accordingly, this report is invalid if used for any other purpose.

The intended user of this report is City of South Miami. City of South Miami may disclose our report to its auditors or other advisors who will assist in its use. Neither the report nor its contents may be referred to or quoted in any public filing or document given to third parties without American Appraisal's written consent.

ENGAGEMENT SCOPE

American Appraisal completed an inventory and tagging of the identified fixed assets located at these facilities on November 27, 2012.

The inventory was limited to those assets classified as land, land improvements with a unit historical cost of \$25,000 or greater, buildings at \$50,000 and above, fixed equipment, infrastructure at \$250,000 and above, and machinery and equipment with a unit historical cost of \$5,000 or greater for GASB 34 purposes. We also inventoried machinery and equipment with a unit historical cost greater than \$1,000 but less than \$5,000 for property management and control purposes. All other asset classifications were excluded from the inventory.

At the request of City of South Miami, our report and exhibits include values of certain assets that were subject to our inventory procedures and were included based on information provided by City of South Miami. These assets include buildings, fixed equipment, machinery and equipment, intangible assets, software, upgrades, repairs, and accessories. However, intangible assets, software, upgrades, repairs, and accessories were not subject to our inventory procedures.

EFFECTIVE DATE OF REPORT

This report as of September 30, 2012, is based upon our inspection as of November 27, 2012.

DEFINITION OF HISTORICAL COST

Historical cost is defined by Generally Accepted Accounting Principles (GAAP) as the amount of cash, or its equivalent, paid to acquire an asset.

SCOPE OF WORK

We reconciled the inventory to the fixed asset accounting records maintained by City of South Miami. If included in City of South Miami's fixed asset accounting records, we utilized the historical cost, acquisition date, and useful life for the property identified during our inventory procedures. Those assets included in the fixed asset accounting records that were not located during the inventory are identified as unrecorded retirements. For assets that were identified during our inventory procedures that were not included in City of South Miami's fixed asset accounting records (unrecorded additions), the unit's acquisition date was estimated based on the manufacturer's model and serial number, age of facility, observed condition, and other factors. The determination of historical cost of the unrecorded additions was based on standard costing and normal costing techniques. These cost approaches are defined as follows:

- Standard costing is a procedure used to estimate the original cost of an asset by comparing it with the known average installed cost of an identical or similar unit at the estimated installation date of the subject identified fixed assets.
- Normal costing is a procedure used to estimate the original cost of an asset by estimating the current replacement cost and reverse trending it back to the date of acquisition.

We did not perform any procedures to identify the purchase, disposal, transfer, or movement of items between the reporting date of September 30, 2012, and the completion of our inventory procedures on November 27, 2012. Although inventoried, those assets with an acquisition date after September 30, 2012, are not included in the report.

Depreciation methods and conventions for property accounting were applied based on the historical costs, useful lives, and dates of acquisition. The straight-line/unrecovered cost method was used to calculate a full year's depreciation in the year of acquisition and full year of depreciation in the fiscal year of expiration.

Useful lives were either provided by City of South Miami or determined by American Appraisal based on generally accepted useful lives for the different classes and types of assets.

CONCLUSION

Our conclusions, as of September 30, 2012, of the historical cost, accumulated depreciation, and net book value are as follows:

Description	Historical Cost (\$)	Accumulated Depreciation (\$)	Net Book Value (\$)
Assets subject to the inventory procedures	48,547,773.35	8,939,746.34	39,608,027.01
Information provided by City of South Miami	1,171,610.94	115,598.20	1,056,012.74
Total	49,719,384.29	9,055,344.54	40,664,039.75

This report and our conclusions are subject to the attached assumptions and limiting conditions.

Respectfully submitted,

American Appraisal

Exhibit J

Assumptions and Limiting Conditions

ASSUMPTIONS AND LIMITING CONDITIONS

Unless otherwise stated in the report, the following assumptions and limiting conditions apply to the service performed:

- **Information Relied Upon from Others**

To the best of our knowledge, all information, including historical and projected financial data, estimates, and market data relied on in developing the opinions and conclusions in this report, was gathered from reliable sources and is true and accurate. However, no guarantee is made of, nor liability assumed for, the accuracy of information provided by others.
- **Valid Title**

No investigation was made of the title to or any liabilities against the property identified in the report. We assumed that all property rights are valid and marketable and that no encumbrances exist that cannot be cleared through normal processes.
- **Report Purpose and Use**

This report and the associated opinions or conclusions are only for the specific purpose and use stated in the report, and they are invalid for any other purpose and use.
- **Effective Date**

The opinions or conclusions stated in this report are based on the status of the market and the purchasing power of the currency as of the specific effective date stated in this report and are valid only as of that date.
- **No Publication and No Third-Party Rights**

No portion of this report may be published or given to any third parties without the prior written consent of American Appraisal. No third party shall have the right of reliance on this report, and neither receipt nor possession of this report by any third party shall create any express or implied third-party beneficiary rights.
- **Property Description**

Any property areas, sizes, dimensions, or descriptions in this report are included for identification purposes only and should not be used in a conveyance or other legal document. We did not verify the property areas, sizes, dimensions, or descriptions used in this analysis. Any plat in this report is intended only as a visual aid regarding the property and its environment and should not be considered a survey or scaled to size.
- **Regulation Compliance**

We assumed that the property has been responsibly managed; all applicable governmental regulations, including zoning and use regulations and restrictions, have been complied with; and all required licenses and permits have been or can be obtained or renewed for the use that is relevant to this analysis. Further, we assumed that the improvements, as well as the utilization of the land and improvements, are within the boundaries of the property described and that no encroachment or trespass exists.

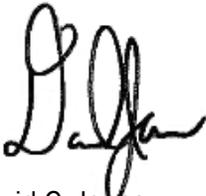

Exhibit K

Certificate of Consultant

CERTIFICATE OF CONSULTANT

I certify that, to the best of my knowledge and belief,

- The statements of fact contained in this report are true and correct. I have not knowingly misrepresented any facts or information that would have an impact on my conclusions.
- The reported analyses and conclusions are limited only by the reported assumptions and limiting conditions, and represent my impartial and unbiased professional analyses and conclusions and those of American Appraisal.
- American Appraisal and I personally have no present or prospective interest in or bias with respect to the property that is the subject of this report and have no personal interest or bias with respect to the parties involved.
- Members of my appraisal staff have made an inspection of the real and personal property that is the subject of this report; I have not made an inspection of the property.
- Jamaal E. Condry provided significant assistance.

A handwritten signature in black ink, appearing to read "D. Jones".

David C. Jones
